(Verse)

They say they want
You to live your life.
Maybe, maybe
They wish they could live it for you.
They say that they are happy that you made it,
But really, they wish it was them, them, them.

Them, them,
Them, them,
Them, them,
Them, them.

(Verse)

Don't come down,
Keep your head above the water.
And when they doubt, just keep showing them that
you're stronger.
I smoke too much,
I think I got a drinking problem.
But if you and me, all this at your place,
Fuck would you do.

(Verse)

Imma be the same, I probably never change
Niggas think I'm new but I got years up in this game.
Been doin my thing I've been here carving my own lane
I've been had all them cars, been had them diamonds
in my chain.
You say you were a rockstar, a superstar, a big shot,
Well it takes a little time, a little patience, I live a lot,
Plus I give all I got.
