[Intro:]

Just keep goin', and goin', and goin'..

[Verse 1]

I seen it coming

Yeah, I seen it coming

You do everything for these niggas

They treat you like you did nothing

But fuck that, because all of this came from nothing

Now when I pull up, I ain't on top of my nig

I'm stuntin. Smoking something

Playing my newest shit, and you know its bumpin

You ain't used to it, you gon grow accustomed

Niggas hate me cause they got no progression

All the realest niggas, they know and trust em

And plus, your money's slow as fuck

I bet soon as I roll one up

That they gon know it's us

Before I pass it, hit it twice and I hold it

Trying to get my money to the point where I can't fold it

[Hook]

Going away...

[Verse 2]

I made it happen, I made it happen

And niggas got mad at me cause I did this shit off of rapping

Hear what they saying

They need no luck because I macked it

And now I got my own gang, nigga

I'm the captain

You know me player, ballin nigga and stackin

All the same with a passion

All cause I'm bringing racks in

Remember when all those niggas was passed em?

But now they still call me the main attraction

Some niggas want the power, respect

Some niggas want the fame, the check

I'm in Dubai wake up I'm in Tibet

Them niggas had it, man, it's nothing short of savage..

[Hook]
