[Hook]

Roll It Up, Light It Up, Have A Puff, Lets Take A Plane x4

[1st Verse]

Nothing but gin in my trippy cup

Pouring more I can't get enough

Young Khalifa on that hippie stuff

I break it down, and it lifts me u-u-up

So much shining, So much diamonds

All that there come from so much grinding

So much weed up in my lungs, Im in the air, Im

somewhere flying

In your town to cop me a pound, Show me one and I'll

roll one

All my nigga straight drug addicts, Cause it takes one

for you to know one

Bake some and never hold none

Young niggas with some old lungs

Catch me out at your college campus, Weed rolled with

a cold one

Outside with my new car, My Chally parked by my old

one

Gotta couple of rolley's dawg, but im usually rockin' tha

gold one

Catching flights on them private planes, Ferrari doors I

close them

Don't talk a mill you aint sold one

Don't talk a pound you ain't smoke one
