Started out out slow  
'Cause no matter how much she gets, she wants more  
Girl, now we on the top floor  
Holdin' on tight, you ain't lettin' go

Can you feel it?  
Can you feel it?  
Feel it?

Oh  
First class have you in the game like a free throw  
Fill my bank up with cash, my glass were clicko  
You ain't gotta tell your friends what we talk about or  
the places we go  
You're mine for the night, your man try and rip all, oh

Work nights, never sleep so you think she got no job  
Go to school durin' the week, on the weekend, we go  
hard  
Live so large, let you daughter down the mall like it's  
your car  
It's no problem, go 'head, sing it, girl, this is your song,  
oh

Started out out slow  
'Cause no matter how much she gets, she wants more  
Girl, now we on the top floor  
Holdin' on tight, you ain't lettin' go

Can you feel it?  
Can you feel it?  
Feel it?

Oh  
Nothing you can tell us, they get jealous when we show  
up  
Make you feel like a little girl again but fuck you like a  
grown up  
High as you can be, it's like the dream you never woke  
from

My life's like a movie, get ready for your close-up

Pour bottles and toast up  
Your man ring your phone, tryin' to see what your plans  
is  
So what? You still turn up my songs soon as they playin'  
it  
Know what the sound is, my new talks and you ain't  
sayin' shit

I'mma call you soon as I land  
Probably roll some weed, ride up on the beach while  
you tan  
Party every week and you hardly would speak  
But now you got my phone takin' pictures  
Laughin', smokin', chillin', yeah

Started out out slow  
'Cause no matter how much she gets, she wants more  
Girl, now we on the top floor  
Holdin' on tight, you ain't lettin' go

Can you feel it?  
Can you feel it?  
Feel it?

We don't really need to talk  
Probably 'cause we're in the sky, sky, sky, sky  
When we really take off  
And I tell her, hold on 'cause she say she never been  
this high

We don't really need to talk  
Probably 'cause we're in the sky, sky, sky, sky  
When we really take off  
And I tell her, hold on 'cause she say she never been  
this high
