The tweak is heavy  
My clique is ready  
My diamonds crazy  
Don't try to play me

[Verse 1]

A quarter million dollars, if I'm in it, I paid it  
My watch my Rolex, niggas sayin' I made it  
Yeah, I smoke good weed, so these fuck niggas hate it  
Bought thirty-five bottles, just to get faded  
The tweak is heavy, the tweak is heavy  
Before I leave the crib I grab the keys to my Chevy  
I got some gold around my neck, got some gold in my  
mouth too  
My wife is mixed, but damn she's thick like she's  
from the South too  
Pourin' shots; takin' em. ... joints; bakin' em  
Thin dollars; bankin' em. Ballin' just like ...  
Fuck niggas; ain't with em. Too dirt; hang with em  
Find out they singing just like Franklin ...

[Verse 2]

Ever wake up in Vegas you gotta play this  
Ever blackout? You knowin' just what I rap out  
Ever smoke so much weed you wanna tap out?  
Ever go to a city and bring the trap out?  
Bring the pack out, bring the packs out  
All the way to the bank, got something to lap out  
Drink fo' bottles of champagne ain't even pass out  
'Bout to etch in, you niggas actin'  
Niggas talkin' all that shit like it won't happen  
Nigga come out to the 'burb we get it crackin'  
Youngn's stackin', money stackin'  
One you get up out the game you can't get back in
