waking up the neighbors
you can hear the headboard shaking
i leave all your body parts aching
speedin up the pace
while i look right into your face
you tell me thats that good shit you tastin
and i know you like it from the side
but tonight ima just -- and let you ride and watch you
take it
cause im tryna get you so wet, i mean so wet
if theres a record for this shit then ima break it
its goin down no matter the place or time my car i got
enough space
think anything you think you want no prob i got enough
cake
all up in it in the morning knowin damn well that i had
you up late
aint buyin it
you aint spendin it
you keep throwing back so im giving it

you love when i get up in it
you love when i get
you love when i get
you love when i get up in it
you love when i get
you love when i get
you love when i get up in it
you love when i get
you love when i get
you love when i get up in it
you love when i get
you love when i get up

wake up when i bake up thats just somethin that i do
pick your favorite sex scene
thats what im gon do to you
up in my beds where you prolly belong
givin you all that i got till its gone
sexy as fuck you still got them --mils== on
favorite position we trying them all
once i get in cant get outta my zone

fuck you so good you wont pick up your phone
and when your girlfriends or whoever do call
youre fucking we me so you tell em you gone
you dont smoke so i break it down you roll it up
you poke it out your face down so i hold it up
you dont give a shit that my money so big i cant fold it
up
plus --i aint time at-- you finish
this aint a race but im winning

you love when i get up in it
you love when i get
you love when i get
you love when i get up in it
you love when i get
you love when i get
you love when i get up in it
you love when i get
you love when i get
you love when i get up in it
you love when i get
you love when i get up

you dont even gotta name a place where we can go
cause we already going going going
dont nobody gotta ask or even got to know
and we already going going going

you love when i get up in it
you love when i get
you love when i get
you love when i get up in it
you love when i get
you love when i get
you love when i get up in it
you love when i get
you love when i get
you love when i get up in it
you love when i get
you love when i get up
