[Chorus]

We're done, but it's not over.
I'm started again, out to the end of the day.
It keeps getting better.
Don't be afraid, we'll do it together.

Started from nothing, ended up with everything.
From the house, to the whips, taking trips to any place
that you care to name.
Champagne, skydivin'
EZ wider papers, no blunts, hit it once you mile high
Runnin' now I'm livin' how I'm supposed to.
Laughing at you haters like I told you
I just tell the waitress keep pouring.
Get in front of the camera keep posing
Too much bank to be rolled in, that's why I stay golden,
till the cake gets swollen.
And you just can't fold it. or it's old and molded.
And the crust get golden.

[Chorus x2]

You stay the night cause you say my life is exciting
Wake up still drunk not going to work cause you like it
Livin' with no regrets
Buyin' more bottles while we got ones I ain't even
opened yet
Notice that first thought you wanna talk about your
boyfriend
Now everytime he callin' you ignoring them
Somewhere tasting trees
Cat and mouse
You chase me I'll chase this cheese
While we're young, one

[Chorus x2]
