Whether you're in L.A.,
Sunny laid back L.A.
Whether you're in New York,
Comfort 'round your block.
Whether you're in the U.K.,
Where the sky is dark
And the grass is kinda green,
You know like Central Park.

Still my favorite place In this whole wide world
Has got to be in the middle of the ocean floor.
I see you poking out of the ocean, Paradise on Earth.

The 50th state - WHAT?!
Hawaii.

Ooooooh Oooh
Oooh Oooh Oooh
I wanna live in somewhere different.Oh oh oh
A nuclear distaster might be on our way.
But I don't care, I'm in the U.S.A.

Whether you're drunk or stoned
or we're sober and old,
If I'm with you I'm a happy man.
if you feel safe and cold
while you count your gold.
if your problem is you can't find
your remote control.

Still my favorite person in this whole wide world
is the woman who can understand every word
and when she speaks to me, she makes me
see the whole world
as my favorite place...
Hawaii.

We got it made
Oh Oh Oh Oh
Yes, I know
Can we go

By plane or boat
Oh Oh Oh Oh

Whether you take it slow or you let me go
Whether you tell me something that i did not know
Whether you're neat and polite or you scream and fight
Whether you tell me something that i would not like

Still my favourite attitude in this world so far
Is the friendly spirit of an iron heart
I like the way folks are in this most special place
I don't care what happens I'm taking a plane

Hawaii Ha Aw Wa II !!
Hawaii Ha Aw Wa II !!
I said
Hawaii Ha Aw Wa II !!
I said
Hawaii Ha Aw Wa II !!
I said
Hawaii Ha Aw Wa II !!

Kauai or Oahu
Molokai or Lanai
Maui and the big guy,
a.k.a. Hawaii
Hawaii Ha Aw Wa II !!

Hawaii
Aw Wa II !!

Ooooooh Oooh
Oooh Oooh Oooh
All I want to do is something different
Oh let me in
Cut off from Malaysia
Back in who knows when
Oh we got kinda lost
But my god What a place!
I profess
Cannot take
Away my soul
