Iron Lung, i know you well
Deal with you like a bad spell
See the trail, moon burns
Red stripe and vicadin
You were the only one
You were the censor
You'll never people me
I'm not defenceless
In the afternoon as the light dims
Build a life out of all, all of this semtex
You're the brightest one
You were the centre
The perfect opposite of what you asked for

Its not just one way
A negative factor
With all of these wasps out
I'd better take cover, better take cover

Copper tongue, beam me up
Lonely without my impediments
Start to save what we used to steal
Walking out on gelatine
I never noticed you, you were the brightest one
You were just wide of me, just like the English sun
You caught light again
In a perfect way
The biggest threat of all, is in the alleyway
You're the demon seed, you're the factor
You'll feel better with a little bit of plaster

Its not just one way, a negative factor
With all of these wasps out
I'd better take cover, better take cover
I'd better take cover.

There's all the pain
In the way she talks
All the pain in the way she walks
All the pain in her wave goodbye
All the pain in the way she smiles

All the pain in her fatal charm
All the pain in her arms
(Her arms, her arms, her arms)
