Hello, do you remember me? I'm a song that you
maybe
already heard from anybody else

They took some other melody But it's still what it used
to be
Those same old boring three chords and a stupid
melody

There comes a middle part this part will break my heart
'cause I know that it used to be played so much better
than the play it right now player so much better
than they play it right now

Hello, do you remember me? I'm a song that used to
be
already played by anybody else

They changed some of the melody but it's still
what it's always been
The same old boring three chords and a stupid melody

There comes the middle part this part's gonna break
my heart
'cause I know that it used to be played so much better

thaan they play it right now played so much better
than they play it right now

Hello, do you remember me? I'm a song you definateley
heard
already a hundred times before

They stole some other melody but it's still what it used
to be
Those same old boring three chords and a stupid
melody

There comes a middle part (again) this time it makes
me fart
'cause I know that another band would play it so much
better

than they play it right now

Hello, do you remember me? I'm a song you definitely
heard
already a hundred times before

They stole some other melody but it's still what it used
to be
Those same old boring three chords and a stupid
melody
d a stupid melody d a stupid melody
