Energy from every pore  
Make what you will  
Are you with or without?  
The force cannot be blamed

Just the hunger or greed  
Supplying the ugly drive  
Dirty water, no profit to supply  
That round traveled far too long

In every direction you turn  
Touch fire and burn  
To earn self recognition over all  
Preoccupy your nonsense

Plead my inner sense  
Savor this aroma of a new experience  
High intelligence bound for the underground  
We burrow deep down

I originate like the word 'Individual'  
Visual, visionary I vary  
And all for see my eye view  
Multiply through the big bad city  
With a human emotion running wild

Not fit for the child of all ages  
Accelerate speed of life  
Moving closer to the center  
Enter at your own if you will

Still the hustling, bustling, busy bee hive is alive  
And kicking I'm picking the moment  
I gotta get away from this monotonous, call the capital  
'L' loving every minute that I'm in it

[Incomprehensible]
