I'm beside myself
But does it matter

It's good to hear you're doing well
But does it matter

I'm beside myself
But does it matter

It's good to hear you're doing well
But does it matter
In the end

It's about me and you
The hardest part

Cos it's about me and you
The hardest part

It's about me and you
The hardest part is letting you go

It's about me and you
The hardest part
Thinking all about me and you

And if it breaks down
I will shut down
