Stay in your coma  
In your own frustration  
Lip sinkin' haircut  
Blow me away

'Cause I'd rather be in this noise  
Suffocate in this noise colder  
It means so much to me

Nostalgia  
Makes your livin' so easy  
Ludites  
Make it easy for me

'Cause I'd rather be in this noise  
Suffocate in this noise  
Colder  
It means so much to me

To me to me to me  
To me to me to me

'Cause I'd rather be in this noise  
'Cause I'd rather be in this noise  
'Cause I'd rather be in this noise  
'Cause I'd rather be in this noise

Rather be in this noise  
Rather be in this noise  
I'd rather be in this noise  
Rather be in this noise  
Rather be in this noise

Repetition baby  
Machine is takin' over  
Dance with me baby  
The future is here

Scientific baby  
Waltz hand in hand  
Scientific baby  
Technological man

Would you rather be in this noise?  
Celebrate in this noise colder  
It means so much to me

Would you rather be in this noise?  
Celebrate in this noise  
Colder  
It means so much to me

Repetition baby  
There's no escape from me here  
Run run baby  
Try to run from me here

Reconciliation  
Welcome back here  
Fun fun fun fun fun  
Get your fun from us here

'Cause I'd rather be in this noise  
Celebrate in this noise  
Colder  
It means so much to me

'Cause I'd rather be in this noise  
Celebrate in this noise  
Colder  
It means so much to me

It means so much to me  
It means so much to me  
It means so much to me  
It means so much to me  
It means so much to me
