I walk alone in a crowded street  
A sneaking lonesome stalker of the night Suspicious  
eyes that I meet  
Always look upon me with deceit I can feel insanity  
Crawling down my spine Because I am so insane  
Really so insane  
Here in space minds ablaze  
Burning frenzy, yeah  
You can't see inside of me  
Through my twisted stare  
I hear them voices in my mind  
Suggesting evil doings all the time  
Release the wolves the moon is full  
I feel them bugs crawling inside my skull I'm in  
reversed  
Utopia  
Exploring all the dark abandoned sides  
Because I am so insane  
Utterly insane, yeah  
Here in space minds ablaze  
Burning frenzy, yeah  
You can't see inside of me  
Through my twisted stare  
Every time I see the light  
Clouds begin to gather  
All my hopes before my eyes Vanish into smoke  
You don't know how much I yearn  
To get out from this prison I can hear what's left of me  
Calling from inside  
Here in space minds ablaze  
Burning frenzy, yeah  
You can't see inside of me  
Through my twisted stare  
This is me - insanity  
Everything I am
