I'm lying here in my bed
I've got a critical case of something good
And I'm wondering what's happening to me
The doctors here by my side
Said he's never seen a case this this before
Your medicine has no effect on me

There are monsters in my head screaming, out for you

I'm sitting here and all I see
Is a million dreamed turned back at me
Fairytale read to me as a child
Snow White she comes to my room
With a poisonous apple and a look of
I know this isn't real anymore

There are monsters in my head screaming, out for you

There's nothing I can do
There's nothing I can see
Coz the things I provide don't take Monsters away
You realise, that the monsters in you
That the monsters in you
That the monsters in you.

This thing up here is killing me
And it's stinging my finger like a little be
My precious heart don't know which way to turn
My eyes are closed so I can't look
But they're reading my mind like an open book
And there's no escape from demons such as these

Oh baby please won't you exorcise the demons in my
mind
I can't take it no more
Oh baby please won't you exorcise the demons in my
mind
Coz they're isn't a cure

There's nothing I can do
There's nothing I can see

Coz the things I provide don't take Monsters away
You realise, that the monsters in you
That the monsters in you
That the monsters in you.

What about me?
What about me?
What about me?
What about me?
What about me?
What about me?
