Somebody help me get out of this place
Too many words, I confuse what I say
Calling the victims, A probable cause
Give me the keys and get out of this box

Keep both hands up
On the way to destination anywhere
Keep both hands up
On the way to take control

I cant let myself fall down
I cant help myself right now
I cant let myself fall down
If I cant be myself, I fall down

Somebody help me get out of this place
Too many fools with a smile and a face
Somebody help, The prescription is wrong
Im never awake unless I fake it

I cant let myself fall down
I cant help myself right now
I cant let myself fall down
If I cant be myself right now

Keep your head on straight
Make the kids behave
Keep your mind awake
If I cant be myself, I fall down

Keep both hands up on the way up
Destination anywhere

I cant let myself fall down
I cant help myself right now
I cant let myself fall down
If I cant be myself right now

Keep your head on straight
Make the kids behave
Keep your mind awake

If I cant be myself, I fall down

Fall down
