Life is very short
But I can't wait that long
Filled with so much love
To use it now is wrong
So I'll wait and I'll wait
'Til it's my time
A new life now is better you'll see

It's just a waste of time to try and
Find her in this world
It's such a lonely life to live without
My heaven girl

I see her in my dreams
The vision stays in mind
Let's open those golden gates so wide
And wait and wait 'til it's my time
A new life now is better you'll see
