You gotta face the facts

There's a price to pay

And some things never change

You can turn your back

'Til it goes away

Or find someone to blame

When you try so hard

To do what's right

And laugh about your pain

It doesn't mean you won't

Wake up at night

Crying once again

You might have had everything that you thought

Was worth the time

But just like a dream it's so easy to lose

All these things before your eyes

Can anybody listen when I say

Oh no

What's it gonna be

What's it gonna be

Will someone let me know

There's a deadly silence killing me

It just won't let go

Where is the key that will unlock the heart

I keep inside

But it's such a drag to be caught between

All the madness in my mind
