They tried to take my life today

Although I'm innocent

We'll find a place to hide away

From all of them

Take me away

Last night there was an argument

And they brought down the law

So many people lost their senses

From what they saw

Take me away

Ooh won't you take, take me away

Won't you just take this boy away

There is enough out there

To fill your mind with fright

Mistreaters, maneaters,

Creatures of the night

Like Romeo and Juliet

We've got to be strong

When other people just forget

Right from wrong
