

Wolf Parade "Modern World"

Visit "[Modern World](#)" on MotoLyrics.com

I'm not in love with the modern world
I'm not in love with the modern world
It was a torch driving the savages back to the trees

Modern world has more ways
And I don't mention it since it's changed
While the people go out and the people come home
again

It's gotta last to build up your eyes
And a lifetime of red skies
And from my bed saying you're haunted, hissing in my
bed
Modern world don't ask why
Cause modern world will build things high
Now they house canyons filled with life

Modern world i'm not pleased to meet you
You just bring me down
