Early morning Sun has risen gold and chrome for
Anastasia
Wake up slowly out the window someone calls for
Anastasia
And I don't know how to stop it at all I just don't know
how
to stop it at all and I don't know how to stop it Anastasia

He wants your heart in his little fictions
But he just hasn't earned it yet baby
So raise your hands
As he's explaining how he built this city on cocaine
lasers
And he don't know how to stop it at all he just don't
know
how to stop it at all and he don't know how to stop it
Anastasia
Morning will turn turn everything back to gold

So kill the lights
For slow slow dancing
Oh as if no one would notice
And sing your songs
Sing them all night baby
If it's out of key well nobody's perfect
And you don't know how to stop it all all you just don't
know how to stop it at all and you don't know how to
stop
it but morning will turn turn everything back to gold

Oh! You'll never know you'll never know know about
How his little heart his little heart was feeling so down
