### "Stupid Mind"

Words can't touch your heart,

don't you know that.

But you know me,

as well.

Weird looks aren't scaring me,

have you figured that?

You say that I've a stupid mind,

but I feel fine.

Chorus You are what you meant to be,

are you ready to pay the fee..

To get out of it..

Ever thought of you smiling at me,

but never happened really.

Are you able to love someone,

when you really know this someone..
