and you're sitting in your room
enjoying entertainment
and you're watching tv
colours bright and so enchanting
you couldn't be near her
wouldn't hear what annie says
when annie's sad
you couldn't be near her
wouldn't hear what annie says
and your waiting for your daily thrill impatiently ...
to collect it for your private horror show
and you're watching moving shadows live instead of
you ... and you ...
you don't know that annie's living next to you
jesus christ we love you so
since we saw your tv-show
suicidal tendencies, but no will to interfere
feel it coming over you ... indifference ... indifference ...
choosing channels watching news
ignoring annie's point of view
you couldn't be near her
wouldn't hear what annie says
when annie's sad
you couldn't be near her
wouldn't hear what annie says
you couldn't be near her
wouldn't hear when annie laughs ... when annie laughs
you couldn't be hear her
wouldn't feel that annie ... annie ... annie loves
