I know where I'm gonna go when I get home today

I'm going... up the ladder, through the wall

going up to the sky all the way

yeah, I don't know

I don't know your name, can't see your face, I can't see
you fall

Your fall's too long, you look too hard, and I... can't
break out

When I go up to the ceiling I... look outside

I can't see you and you can't see me

I see you're outside now

Oh, just show me, show me the way to the... pharmacy

Pharmacy's closed coz it's 12-o'clock, it's the midnight
hour

Show me the way to the moon, I will follow you behind

Breakthrough thoughts fall from the sky

I can't read your mind, I can't see behind

I don't...

You're in charge of this

Tell me what to do, tell me who to see

Planes crash into a runway base

'cause you're through with me

Travel through the desert
looking for a sign
Please tell me how to get there
All my brothers running around
They don't make a sound,
and they collapse on the ground
and you....
can't seem to find
My hair's too long
I know I'm wrong
When I found myself on the ground...
Hold me closely...
I've been dead too long... YEAH!!

notes -

This song was originally recorded on superfluous
pretzel's "rhinoceros

afrodeesiak ep" which was sent to Kevin Clow to review
for a demo review

column.

He liked this song so much, he asked sp's permission
to tag it on the

end of the demo his own band, Unhinged, was
recording. They said yes.

Unhinged performed this song at a few of their live
shows, but never

recorded it
