Blue, blue is the color of skies

Blue is the color of your eyes

Your beautiful blue eyes

Black, black is the color you wore

Black is the promise you made before you closed the door

And never told me why

CHORUS

I'm black and blue because of you

I feel like I've been beaten

You walked away from me

Leaving me all black and blue

You, you used to sleep by my side

You swore you had nothing to hide

And now there's nothing left to lose

Night, night after long, endless night

You swore you had nothing to hide

And I was so naive to believe your lies

CHORUS

Down in the depths of your soul

I hear the echo and the sigh that your secrets can not  
hide

They never lie to me

Night, night after long, endless night

You swore you had nothing to hide

And I was so naive to believe your lies

CHORUS

Broken in two because of you

I feel like I've been beaten

You walked away from me

Leaving me all black and blue

Black and blue because of you

I feel like I've been beaten

You walked away leaving me all black and blue
