COME WHAT MAY

Air Supply

Words by: Cynthia Well

Music by: Tom Snow

When she looks at me

I know the girl sees things

Nobody else can see

All of the secret fears inside

And all the craziness I hide

She looks into my soul

And reads me like nobody can

And she doesn't judge the man

She just takes me as I am

CHORUS

Come what may, she believes

And that faith is something

I've never known before

Come what may, she loves me

And that love has helped me open a door

Making me love myself a little more

When I turn away

She knows those are the times

There's nothing she can say

Nothing that anyone can do

And so she lets me live it through

And when I'm in my darkest hours of uncertainty

She just simply lets me be

And goes right on loving me

CHORUS

Come what may, she believes

And that faith is something

I've never known before

Come what may, she loves me

And that love has helped me open a door

Making me love myself a little more

And when it seems my dreams

Have all slipped through my fingers

When they just can't be found

I turn around and there they are

Shining in her eyes

CHORUS
