Graham Russell)

I didn't really walk away I had something to explain

Trying to reach you night and day when I did not know  
your name

Shall we promise just to talk of it alone, all alone

Why can't the voice that said hello at the moment of  
first sight

Whisper the words I need to know speak to me that way  
tonight

Let me hear it travel through the restless sky straight  
from you

Come to me today

CHORUS

One step closer forward motion

One step nearer our destination

One step closer forward motion

One step nearer our destination

How can I bring myself to sleep till I'm resting by your  
side

Sharing the secrets hard to keep

When you live them all through the night

And then wake up with the words I'll always want you to  
say

Come to me today

## CHORUS

A lonely man has come undone

Is it wrong to think I understand when you are as close  
to me

And not much further to go

Let me hear it travel through the restless sky straight  
from you

Come to me today

## CHORUS
