I came to try

To tell you that I gotta let go

Now I'm wondering why

God knows I don't even know

I don't care what they say

I don't care what they do

I don't care if it's wrong or right

This feeling inside me

Is more than some fantasy

It's bigger than you and me

It must be time for love

I've spoken my mind

There's nothing left for me to say

Well, it's black and white

There's nothing standing in your way

Stay the night here and see

Share your body with me

And I'll show you two hearts on fire

You're reaching out with your eyes

Got me so hypnotized

Now that you realize
It must be time for love
Hold me wiht all your might
Take me on through the night
You make everything just right
It must be time for love
Only your heart will know when it's time for love
Don't wait too long or you'll find you're
All alone and love has come and gone
This feeling inside of me
Is more than some fantasy
It's bigger than you and me
It must be time for love
Hold me with all your might
Take me on through the night
You make everything just right
It must be time for love
