(Gretchen Peters)

I was a long lost soul
I was a burnt out case
I felt my heart grow old
I wore a strangers face
I built a wall so high
I built a gulf so wide
I saw my life go by
On the other side
I wasn't looking for a miracle
Just hoping for relief
But you gave me something
Something to believe

Chorus: I saw your light
and I was changed
I was changed
I saw your light
And nothing is the same, no, no
Maybe all of us are weak
Maybe love is fast asleep
In the middle of an endless night
I saw your light
I've come a long, long way
I walked a crooked road
And there was hell to pay
And there were miles to go
I thought I'd lost my nerve
I thought I'd lost my spark
Life had thrown a curve
And I was in the dark
I wasn't looking for a miracle
Just hoping for relief
But you gave me something
Something to believe
(Repeat Chorus)
