There's nothing wrong to talk about
Until I came in to jump and shout
But it's not over with a boy in town
I better knock it out turn it around
I've got the power with a boy in the shower
Until he find his way back home from Rome
To Texas a little blonde lady with pink flowered
Dresses and pony tails oh is she cute? I have to
See her play that flute (yo)

Chorus:

I know all about the time
I know all about the time
I know everything that you don't
I know all about the time
I know all about the time
La, la, la, it's not fair
Oh, la, la, la, it's not fair (yeah)

I have all the time in my pocket
And all the past that's in my locket
I can't believe the things that you do
And all the stuff belongs to you (hey)
So my best friend said "Please stay away"
I don't know what to do don't know what to say
'Cause that's not fair because you got all the good
ones
And that's not me, that is you

(Repeat Chorurs)

I know all about the time
I know everything about the time
I know all about the time
I know everything about the time
La, la, la, la, la, la, la, la, la, la
