Are you gonna screw my head up,
as much as I've been told?
Yeah, ok, your pretty weird but
your not the psycho I've been sold.
Thanks for the wonderful evening
but I've got to pay this back
With interest on the miles
and the distance you sent me
you sent me down the track

(down the track)

You sent me down the track till I'm
so Happily Screwed, Screwed

And I've never got so many texts
as I did from you that night
And why do we set up for a year of
movies and one big fight?
Come on, can we go there anyway? This is such a big
waste of time
If you just grab those bags and hold my hand

We'll run...
Straight through the one way sign
One way sign
Straight through the one way sign
You and I could be so happily screwed.
So happily screwed,
screwed
