Obama on the left
McCain on the right
We can talk politics all night
And you can vote however you like
You can vote however you like, yeah

Democratic left
Republican right
November 4th we decide
And you can vote however you like
You can vote however you like, yeah

(McCain supporters)
McCain is the man
Fought for us in Vietnam
You know if anyone can
Help our country he can
Taxes droppin low
Don't you know oils gonna flow
Drillin low off sho
Our economy will grow

I want Obama
FORGET OBAMA,
Stick wit McCain you gone have some drama
MORE WAR IN IRAQ
Iran he will attack
CAN'T BRING OUR TROOPS BACK
We gotta vote!

Obama on the left
McCain on the right
We can talk politics all night
And you can vote however you like
You can vote however you like, yeah

Democratic left
Republican right
November 4th we decide
And you can vote however you like
You can vote however you like, yeah

McCain's the best candidate
With Palin as his running mate
They'll fight for gun rights, pro life,
The conservative right
Our future is bright
Better economy in site
And all the world will feel our military might

(Obama supporters)
But McCain and Bush are real close right
They vote alike and keep it tight
Obama's new, he's younger too
The Middle Class he will help you
He'll bring a change, he's got the brains
McCain and Bush are just the same
You are to blame, Iraq's a shame
Four more years would be insane

Lower your Taxes - you know Obama Won't
PROTECT THE LOWER CLASS - You know McCain won't!
Have enough experience - you know that they don't
STOP GLOBAL WARMING - you know that you won't

I want Obama
FORGET OBAMA
Stick with McCain and you're going to have some
drama
We need it
HE'LL BRING IT
He'll be it
YOU'LL SEE IT
We'll do it
GET TO IT
Let's move it
DO IT!

Obama on the left
McCain on the right
We can talk politics all night
And you can vote however you like
You can vote however you like, yeah

Democratic left
Republican right
November 4th we decide
And you can vote however you like, I said
You can vote however you like, yeah

I'm talking big pipe lines, and low gas prices
Below \$2.00 that would be nice

But to do it right we gotta start today
Finding renewable ways that are here to stay

I want Obama
FORGET OBAMA,
Stick wit McCain you gone have some drama
MORE WAR IN IRAQ
Iran he will attack
CAN'T BRING OUR TROOPS BACK
We gotta vote Barack!

Obama on the left
McCain on the right
We can talk politics all night
And you can vote however you like, I said
You can vote however you like, yeah

Democratic left
Republican right
November 4th we decide
And you can vote however you like, I said
You can vote however you like, yeah
