Funny face, I love you
Funny face, I need you
My whole world's wrapped up in you

When the road I wa-alk seems all up hill
And the colours in my rainbow turn blue
You kiss my tears away
You smile at me and say
Funny face, I love you

Funny face, I love you
Funny face, I need you
These are the sweetest words I've ever heard
Funny face, don't leave me
Funny face, believe me
My whole world's wrapped up in you

And when I hurt your feelings as I sometimes do
And I say all those mean things that we know are not
true
You forgive my childish ways
You hold me close and say
Funny face, I love you

Funny face, I love you
Funny face, I need you
These are the sweetest words I've ever heard
Funny face, don't leave me
Funny face, believe me
My whole world's wrapped up in you

Funny face, I love you
Funny face, I need you
These are the sweetest words I've ever heard
Funny face, don't leave me
Funny face, believe me [fade]
