"Let It Shine"

Visit "[Let It Shine](#)" on MotoLyrics.com

A woman needs attention
Like the flowers need the sun
And without that attention
Well a woman feels undone
Now I'm like a flower
That's been standin' in the rai-ain
A-hopin' and a-prayin'
That the sun would shine again

Is there anybody out there who can shine
Any time would be fine
Is there anybody out there who can glow
And would like to see a little flower grow
Shine on me (shine on me), let it shine

A woman needs a love light
To keep her body warm
And without that love light
Well her mind can do it hard
Now that light's gone out for me
And I'm standin' in the dar-ark
A-hopin' and a-prayin'
Just to see a little spark

Is there anybody out there who can shine
Any time would be fine
Is there anybody out there who can glow
And would like to see this woman's love light show
Shine on me (shine on me), let it shine

Is there anybody out there who can shine
Any time would be fine
Is there anybody out there who can glow
And would like to see a little flower grow
Shine on me (shine on me), let it shine
