My love is my love is  
Strawberry, banana and gold kiwi  
What you picked is just those flavored candies  
Right right right

My love is r.e.a.l real good so good  
It's real good so good for your body and head  
For your mouth, for your body, it clears your eyes and ears  
It's real good so good real good so

You think you're really cool  
You think you have to be cool  
You only saw, heard and learned bad things  
So you eat junk food and think it's good  
You think that's cool  
Like a 12 year old child who refuses to eat carrots  
You say I'm a good girl, you tell me to meet someone better  
Even your mom knows I'm too good for you  
Even if I give you to my friends, they won't have you  
Know that you should be thankful when I'm here

My love is like strawberries  
It's very sweet and has a lot of vitamin C  
No matter how much you eat it, you don't get fat

My love is r.e.a.l. real good so good  
R.e.a.l. real good so good  
For your mouth, for your body, it clears your eyes and ears  
Real good so good my love is r.e.a.l  
Real good so good my love is r.e.a.l  
Real good so good my love is r.e.a.l

You think your youth is too valuable  
You're too reluctant to get settled  
You want to play a bit more, want to enjoy a bit more  
You still don't think it's too late

Do you think you're gonna be young forever?

Girls who say they like you and go to meet you  
They seem pretty like cotton candy but look closer and they're just blocks of sugar  
You eat and eat but are still hungry and it's too sweet that it makes your head hurt  
They stick to you here and there, sticking and rotting

My love is like strawberries  
It's very sweet and has a lot of vitamin C  
No matter how much you eat it, you don't get fat

My love is r.e.a.l. real good so good  
R.e.a.l. real good so good  
For your mouth, for your body, it clears your eyes and ears  
Real good so good my love is r.e.a.l  
Real good so good my love is r.e.a.l  
Real good so good my love is r.e.a.l

Do you still not know? The answer is obvious  
Hold onto me before it's too late  
Say you love me baby, say you need me baby  
If it's not now, it's never - you'll never find me again  
What you threw away is a diamond  
Real good love real true love

R.e.a.l. real good so good for your body and head  
It's real good so good  
For your mouth, for your body, it clears your eyes and ears  
It's real good so good

My love is r.e.a.l. real good so good  
R.e.a.l. real good so good  
For your mouth, for your body, it clears your eyes and ears  
Real good so good my love is r.e.a.l  
Real good so good my love is r.e.a.l  
Real good so good my love is r.e.a.l

Strawberry, banana and gold kiwi
