The animals and me have been in league through  
history,  
I love them and they love me,  
Oh I have been there.

Cats and dogs have got it sussed  
They worm their wa into your trust,  
Spend there whole life getting fussed,  
Oh I have been there.

For a very long time.

The animals and me have been in league through  
history,  
I love the fish in the 7 seas,  
Oh I have been there.

Cows and sheep suffer great defeats  
'cos they weren't quick enough on their feet,  
And now we're cooking them up to eat.  
Oh I have been there.

For a very long time.

There's a message here, for what it's worth,  
Tht the meek shall inherit the earth.  
That makes me a heir from my day of birth.  
Oh I have been there.
