If fear's what makes us decide  
Our future journey  
I'm not along for a life  
'Cause I'm still yearning  
To try and touch the sky  
My fingers burning  
Before you're old, you are young  
Yeah, I'm still learning

Chorus:  
I am falling down  
Try and stop me  
It feels so good to hit the ground  
You can watch me  
I fall right on my face  
It's an uphill human race  
And I am falling down.

I'm standing out in the street  
The earth is moving  
I feel it under my feet  
And I'm still proving  
That I can stand my grounds  
And my feet are there  
Haven't washed my hair  
To be lost before you I found,  
Don't mean you're losing...

Chorus

Someday I live in a house  
Etcetera, Etcetera, Etcetera  
But you know that's not for now  
And for now, I'm falling down, down, down...

Chorus x 2
