Darling can you see something inside
Can't be denied it's the way that you feel
If you want it, you gotta try
Taking the best of the lesson you know
When the night has turned to dawn I will be gone
Where's the reason and the strength to carry on
Come back, I can see you far behind
Taking a chance and forgetting the reason
That I need you on my mind
Making the best of the season till now
Is there nothing in the world that takes the sound
For the more we can conceive the more we found
La la la la
Darling can you feel it? I need your love
I need the way that you make me feel
Darling if you want it, you can be sure
Taking the best of the lesson you know
There so many in the stars watching the sky
And you know somehow that most of them will die
Darling can you see something inside
Can't be denied it's the way that you feel
If you want it, you gotta try
Taking the best of the lesson you know
When the night has turned to dawn I will be gone
Where's the reason and the strength to carry on
