I don't buy faith at the door

Don't handle snakes anymore

I roll my hypnolove to you

I don't need muscular wheels

No scandinavian reels

I would never shake you up

Wouldn't wanna wake ya

I just wanna take you down

I want to open wide

I want to step inside

I don't need optical nerve

I don't believe I'm a perv

I roll my hypnolove to you

I would never shake you up

Wouldn't wanna wake ya

I just wanna take you down

I want to open wide

I want to step inside

I would never shake you up

Wouldn't wanna wake ya

I just wanna take you down

I want to open wide

I want to step inside

I roll my hypnolove all night
