Look at all the things we've been through  
Look at all that we did, and we promised to do  
There was me, there was you  
Two years to blue

I still feel that magic from this  
I still feel that spark  
With your touch, with your kiss  
So such bliss, and then this  
Two years to blue

But now we've got eternity and we can't go wrong  
Baby, we can do as we please  
'cause our electricity could light up this city, baby  
We'll charm the birds from the trees

Look at all of the things we've been through  
Now let's do everything that we promised to do  
Still there's me, still there's you  
It's brand new after two years too blue  
Two years too blue (x2)  
Much too much, too much, too much (x2)  
Too blue (x2)  
You're here baby, i'm here baby (x2)  
After two years too blue.
