Head up
Look alive
No excuses this time
She's not real
It's just your mind
This is it
Say goodbye

Kill her kill her kill her kill her
Kill her off

She's the voice
In your head
That says stay in bed
And she tells you you're weak
You don't need her critique
No she's not worried now
'Cause she knows you'll back down
Don't help her out
Why do you keep her around?

Kill her kill her kill her kill her
Kill her off

Just your mind
Just your mind
Just your mind
Just your mind

Kill her kill her kill her kill her
Kill her off
