cause with some of the best know go on give us our

and you can keep the rest we holdin it down
from the North to the South the East and the West
and we aint settlin for less now chunk it up

[Lil'Flip]

Now when you see me on the streets I'm smokin sweets
and I always keep a bad broad close to me
long hair yella bone wit a college degree
I see Big T. number on my caller I.D.
he say we gotta do a show at the bayou classic
if you cant see we ballin then you need glasses
I'ma million dollar star thats how I carry myself
can't no girl brake my heart cause I'ma marry myself
can't no girl brake my heart cause I'ma man myself
I represent the south side of Houston, Texas
I can't drive a Acura cause I'm used to Lexus

Have you ever seen a watch wit big ol' princess
I live in a condo wit big ol' fences
and everytime I drop a song I'm showin my spine
all I need is a 8 to go wit my pound
I'm the coldest Rap Star thet you ever saw
Platinum got me lookin like I gotta metal jaw

(Chorus 2)

ladda la la la la la
Big T. in the house tonight
