

Wonderwall

"Photograph"

Visit "[Photograph](#)" on MotoLyrics.com

When the first sunbeam crawls up the wall
The first fly come in through the door
On the street - puddles dry
No raindrop fall, the sky has stopped crying

Refrain:

I take a photograph in my mind
To hold the sunshine by my side
Not to cry, not to cry, not to cry

A light shines on my broken eyes
Somebody says: "it's your springtime"
Our friendship grows with every smile
I'm glad to have you by my side

I take that way
With you I'm able to stay
Oh I take that way
With you I take that way...

Refrain

Take that way - don't need to cry
Yes I take that way - don't need to cry
Not to cry, not to cry, not to cry

When the first sunbeam crawls up the wall
The first fly come in through the door
On the street - puddles dry
The sky has stopped crying

I take that way
With you I'm able to stay
Oh I take that way
With you I take that way...

Refrain

Not to cry, not to cry, not to cry...
