"TELL MAMA"

Tell Mama why I just come and go
Tell her that I'm just looking for
Some other faces, other names
And that if I'm cold it's not the rain
It's not the rain

CHORUS

When I feel cold, when I feel cold
I miss my home, I miss my home
I miss my home.

When I feel cold, when I feel cold
I miss my home, I miss my home
I miss my home.

I hide my face, beyond my tears
I'd never thought I could miss you dear
It seems to feel so ...

My face near the window dreams far away
What should I do against this pain?
Against this pain?

CHORUS 2x

Tell Mama that time goes by and by
Like the summer rain you'll meet sometimes
So close your eyes and let it rain
Tell her, after sunshine you'll meet the rain
You'll meet the rain

When I feel cold, when I feel cold
I miss my home, I miss my home
I miss my home.

Tell Mama, tell her, tell her I feel cold
(I --- feel cold ---)

When I feel cold, when I feel cold
I miss my home, I miss my home
I miss my home.

When I feel cold, when I feel cold
I miss my home, I miss my home
I miss my home.
