"Stay With Him"

Visit "[Stay With Him](#)" on MotoLyrics.com

You left me for a long, long time
Saying you're in love with someone else
Now, I can do my best, I can swim the deepest sea
If you really love him, stay with him, stay with him
If you really love him, stay with him, stay with him

I'm sending you this letter, still I've got so much to say
The nights are getting so much longer, and the days
remain the same
If you really love him, stay with him, stay with him
If you really love him, stay with him, stay with him

I'm sending you this letter, still I've got so much to say
The nights are getting so much longer, and the days
remain the same
If you really love him, stay with him, stay with him
If you really love him, stay with him, stay with him
