"Children Of The World"

Visit "[Children Of The World](#)" on MotoLyrics.com

This goes out to all the children

All over the world

This one's for the children

Children of the world

Come a little closer now

So you can see the children's eyes

There's no use in trying

When you're dealing with the dying

So let me have a talk with you

And hope that you believe it too

There's so many ways to help

Laughter you can bring

Come closer now

See the children's eyes

See the children's eyes

You just have to give them a helping hand

With a little bit of love

And a little bit of time

You can help the children of the world

Just a little bit of love

And a little bit of hope

There're a lot of things to do
To help the children of the world
R'n'G is about to take control
The only thing you got to do is set yourself free
We got to help each other that's how it has to be
2-4 Fam. Here to lend a helping hand
Come a little closer now
See it in their eyes
We've got to keep on trying
To stop the children crying
Come closer now
See the children's eyes
See the children's eyes
You just have to give them a helping hand
Chorus
We just have to understand
They all need a helping hand
With a little bit of love
A little bit of love
Lots of things to do
Hope you know it, too
We just want to give them a little hope
Chorus (until fade)
Help the children of the world
