Game over, game

The game is over

Game over, game

You lose (x2)

Invincible is what you think you are

But you're just so typical

Though you think that you're a star

You act like everyone revolves around you

Baby, you dropped the ball

And now the game is through

Cuz you tried to play both sides

You got caught up in your lies

And now you're running, you're running outta time

Chorus

You played yourself (Game over, game)

But did you did you think that you could really find love

From someone else

You're making moves, you're gonna lose, you know

You played yourself (Game over, game)

And now you're thinking thinkin you can get one by me

But you'll never win but you'll never win

Try again cuz the game is over

The game is over

Take it personal cuz I did when you cheated on me

You may be beautiful

But there's more that the eye can't see

You're so predicatble

The way you calculate each move

Heads I win, tails you lose because you dont have the
right to choose

Cuz you tried to play both sides

You got caught up in your lies

And now you're running, you're running out of time

Chorus

How could you think that you could do me like that?

Running behind my back

How could you do me like that?

Now the game is over

How could you think that you could do me like that?

And now you want me back?

How could you do me like that?

Now the game is over

How could you think that you could do me like that?

Do me like that, do me like that?

Chorus

Game over
