I never believed in dreaming

It never got me very far

I never believed that love could find me

Like an arrow through the heart

I never believed in miracles

Or building castles in the air

Not until that day I found you

I turned around and you were there

From the day you came you gave me

A whole new point of view

I've been touched by an angel

It's impossible but true

(CHORUS)

I believe in you

I swear that forever from today

No one will ever take your place

I believe in you

And I believe our love will last always

I never believed in fairytales

Though sometimes I wish I could

I never believed that golden slippers

Could ever find the perfect foot

I never believed in magic

Or that wishes could come true

But your very first kiss

Changed all this something only you could do

You made me a believer

You made me trust again

You showed me there's a pot of gold

At every rainbow's end

(CHORUS)

I believe in you

I swear that forever from today

No one will ever take your place

I believe in you

And I believe our love will last always

Only love set you free

And if you serve to fate

Then you're my destiny

Now I know

Now I see

Anything can happen

If you just believe

(CHORUS)

I believe in you

I swear that forever from today

No one will ever take your place

I believe in you

And I believe our love will last always
