Baby you're not the only one

Ooh yeah, hey yeah

I see the things he does to you

All the pain that he puts you through

And I see what's really going on

Staying out at night while you're by the phone

Take it from me, it's a lesson to be learned

Even the good guys get burned

Take it from me, see I would give you love

The kind of love that you've only dreamed of

Chorus:

Baby you're not the only one

You don't have to be afraid to fall in love

And I know that you've hurt in the past

But if you want it here's my heart

No strings attached

He doesn't give you the kind of sttention

That a girl like you needs, that a girl like you needs

'Cause he always looks around, his eyes wander round

He doesn't see you like I see, yeah

Take it from me, it's a lesson learned

Even the good guys get burned

Take it from me, see I would give you love

The kind of love that you've only dreamed of

Chrous-repeat

Take it from me, it's a lesson to be learned

Even the good guys get burned

Take it from me, see I would give you love

The kind of love that you've only dreamed of

So if you want to take a chance with me

If you take a chance with me

I'll be everything you need, everything you need

Because it's our destiny, oh

Chrous-repeat
