Oh, oh

Hold on ...

Ah, you know what?

Can we back it up just a little bit?

I said why, I said why (Why)

Tell me, tell me, tell me, tell me ...

Oh, oh ... yeah

We were born the same day

We even think the same way

It couldn't be more right

We are what they call a perfect match

It's something that ya can't touch,

Down to the last bone, you're my baby

But to be honest

There's just one thing

A part that is missing

You don't seem to care at all

CHORUS

Tell me, tell me, baby

How come you don't wanna love me

Don't you know that I can't breathe without you

Tell me, tell me, just how

What am I supposed to do right now

Why can't you love me?

Why-y, tell me, my baby

Now from the moment we met

I thought that I was all set

How could I be so wrong

Now I'm hearing that you're seeing someone new

And I wanna know who

But does he love you like I do my baby

But I promise you this one thing

Whatever that's missing

I will make it up to you

So tell me baby

CHORUS - Repeat

For getting under my skin

For messing up my mind

For never letting me into your life

Tell me baby how come you don't wanna love me

And am how am I supposed to live without

If there is no way to make you feel the same way too

F*%\$ you...

Tell me, tell me

Tell me, tell me

We were born the same day

We even think the same way

We are what they all call a perfect match

Tell me, baby

How come you don't wanna love me

Don't you know that I can't breathe without you

Tell me, tell me, just how

What am I supposed to do right now

Why can't you love me?

CHORUS - Repeat
